OBJECTIVE

Detail-oriented Full Stack Developer with 3 years of professional experience in the MERN stack and blockchain integration. Committed to building scalable fintech solutions and high-performance web applications that drive user engagement.

WORK EXPERIENCE

Software Developer | Finitic *3/2025 - present*

- Architecting fintech solutions including CRM systems, crypto payment gateways, and trading platforms.
- Integrating MT4/MT5 platforms and implementing secure multi-chain blockchain features.

Full Stack Developer | MHC *9/2024 - 07/2025*

- Developed and maintained responsive web platforms for international engineering firms with a focus on performance.

Full Stack Developer | Cairo Studio *01/2024 - 12/2024*

- Engineered robust backend solutions and server-side logic using Node.js for live media and travel applications.

Full Stack Developer | Core Technology Solution *11/2023 - 3/2024*

- Developed primary company websites using MERN technologies and managed rapid deployment of specialized web projects.

TECHNICAL SKILLS

Languages:	JavaScript (ES6), TypeScript, C++, Python
Frontend:	React.js, Next.js, Angular, Redux, Context API, React Query, jQuery
Backend:	Node.js, Express.js, Prisma, Socket.io, JWT, Multer, Node Mailer
Database:	PostgreSQL, MongoDB, Mongoose (ODM), MySQL
Styling:	HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Responsive Web Design
Tools/Other:	Data Structures, Algorithms, Git & GitHub, Docker, WordPress, OOP, Block Chains, Agile

CERTIFICATIONS

Modern Javascript (ES6) Course ↗ *Index Academy*

- Advanced training in ES6+ syntax and modern JavaScript development practices.

Node JS course ↗ *Mahara Tech*

- Comprehensive course on building web services with Node.js, Express, and MongoDB.

Introduction of MongoDB ↗ *MongoDB University*

- Foundational training in NoSQL database management and document-oriented data structures.

Computer Network ↗ *Mahara Tech*

- Core concepts of networking, protocols, and infrastructure.

Search Engine Optimization (SEO) ↗ *Google/Other*

- Strategies for improving organic search visibility and website ranking.

Certificate in Oral Communication (CEFR B2) ↗ *AUC*

- Certified in oral communication proficiency by the American University in Cairo.

EDUCATION

Information Technology Institute (ITI) *06/2023 - 11/2023*

- Intensive Code Camp (ICC) - MEARN Track (3-month program)

Route Academy *06/2022 - 04/2023*

- Full Stack MERN Track Diploma (9-month program)

Helwan University *9/2018 - 06/2021*

- Bachelor of Management Information Systems (MIS)

KEY PROJECTS

Cyrafa Pay - Payment Gateway System

- Built crypto & IBAN payment gateway enabling secure transfers and wallet operations.
- Re-engineered client portal using React, TypeScript, React Query, Material UI.
- Developed staking module reducing transaction fees and improving platform efficiency.
- Implemented sub-users, roles, and secure API key authentication system.
- Collaborated on IBAN management module and integration documentation generation.

Forex CRM & Client Portal

- Developed CRM system supporting MT4/MT5 trading, deposits, withdrawals management.
- Migrated frontend from CRA to Vite, upgrading React and Node versions.
- Integrated multiple payment gateways including custom Visa/Mastercard processing solution.
- Built KYC system with selfie, digital signature, and automated PDF generation.
- Collaborated on IB commission module and transaction tracking across services.

Walitica - Crypto Exchange Platform

- Developed crypto exchange platform integrated with HTX for trading operations.
- Improved performance by implementing real-time price updates using WebSockets.
- Connected frontend directly to HTX sockets, reducing latency and backend load.
- Expanded supported cryptocurrencies by optimizing data fetching and update mechanisms.
- Implemented limit order buy and sell trading flows.

Forex Trading Application

- Developed forex trading application supporting MT5-style real-time trading operations.
- Redesigned buy/sell module supporting market, limit, and advanced order types.
- Implemented stop-loss and take-profit mechanisms for risk management.
- Built limit order execution workflows ensuring accurate and efficient trade handling.
- Optimized trading charts by fixing rendering issues and improving performance.

Pyramids Egypt Tours - Tourism Management System

- Developed backend system managing tour subscriptions and tourist registrations.
- Built using Node.js, Express, MongoDB with scalable architecture design.
- Implemented authentication, authorization, and role-based access control system.
- Integrated Multer, Cloudinary, Nodemailer for media handling and notifications.
- Designed management system with secure payment handling and admin operations.

LANGUAGES & SOFT SKILLS

Languages: Arabic (Native), English (B2 - Upper Intermediate)

Professional: Effective meeting facilitation, deadline management, and technical communication.
